I am proficient in several programming languages, such as C, C++, .Net, Angular, SQL, Python, etc. I have experience building web applications using Angular, .Net, and SQL. I am also comfortable with object-oriented programming, data structures, and problem-solving techniques.

I have intermediate knowledge of JavaScript. When I was using HTML, I used Javascript to enhance the webpage. I know a little bit of concepts in JavaScript, like variables, functions, objects, arrays, and event handling. As I mentioned before, I have worked in web development using Angular. So, in that, I have used TypeScript, and I am familiar with TypeScript.

My target is to get HD (High distinction). I aim to get the best score, and I am willing to put in my maximum effort to achieve that score.
